- High Lift Axle
- Additional Exterior Access Hatch

All of the Escape travel trailers are manufactured with a 100% molded fiberglass body. This allows for the construction of a true lightweight travel trailer, with dry weights starting at 2610 lbs for the 19' Escape. The 19' Escape comes standard with a large bed, full wet bath and a double dinette/bed.

The frames are constructed with 4" box steel and a rubber ride torsion axle suspension creating a solid foundation with a smooth ride. The interior is professionally finished with natural oak cabinetry, large windows, high-grade linoleum flooring and a unique insulated vinyl headliner/wall covering. Every Escape includes a large list of standard features, an extensive options list available for customizing, and a full two-year warranty.

The body is constructed from a top and bottom shell which is fiberglassed together at the center prior to being released from the mold to create a seamless body construction. The roof has a raised dome allowing water to run off rather than pooling. This eliminates any chance of water penetration while maintaining a strong, long-lasting lightweight trailer.

The Escape allows people from diverse lifestyles to travel using their existing vehicle. The Escape's aerodynamic and lightweight design eliminates the investment of a large vehicle necessary to tow a conventional RV trailer. Most minivans and SUV's are capable of towing the smaller Escape without a noticeable increase in gas consumption, therefore keeping the investment for travel to a minimum.

Our customers are pleased with the fact that the Escape offers more overall interior storage space; especially in the large overhead cabinets. The light colored wall coverings and large windows throughout each unit provide a brighter interior making it feel more spacious. Using 'real' wood for the cabinet doors and plywood for tables, countertops, and floor add quality and life to the Escape.

Please refer to our website  
for current pricing

## 19' Escape

Whether you are a seasoned RVer or just starting out, the Escape 19' comes prepared. Form and function come together to create our most popular trailer model. At the rear of the trailer you can sleep comfortably in the permanent, full-size queen bed with 8" coil spring mattress. Up front, the living space features a four person dinette/sleeping area with optional cot allowing the trailer to easily sleep up to four people. The wet-bath with sink, shower, and toilet is standard on the Escape 19'. The kitchen features a cooktop, sink, fridge, and microwave cabinet as well as ample storage space in both cabinets and overhead compartments.
